Project 1

Take the Speed Bumps off the new Hwy 21 exits for the bypass to Oxford. Who in the world did something like this by putting speed bumps on exits?? Unheard of and totally unnecessary. Are you trying to damage cars and front ends and alignments??

Project 2

Raise the speed limit from 50 mph to 65mph, 40mph to 50, 30mph to 40mph for the new bypass. Makes no sense to have the speed limit 50 mph, when there it is not an industrial populated area at all. And the speed limits probably do not match the state study recommendations.

Project 3

Why in the world is there such a single lane sharp turn going from the bypass to 431N ?? What in the world??
