PAGE 1

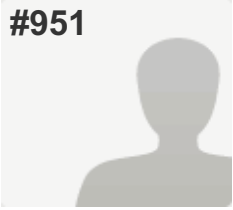

**Q1: If additional road and bridge funding could be secured for your home county, what would you list as the top priority project(s)? List up to three.**

Project 1

HSV Brownsferry Road from County Line to Mooresville Rd condition is a major public safety hazard for all who travel this stretch which contains several dilapidated bridges/guard rails, steep ditches next to the road, endless pot holes. This stretch illustrates the direct disregard for public safety for all that transit this road.

Project 2

Any crossover on US 31 and Hwy 72 without a turn lane should be eliminated for civil safety. These should only exist many miles outside of a populated area and only in low traffic areas. The state and the counties have the exact number of deaths/accidents that have occurred at these inadequate crossovers and should be analyzed to focus and prioritize the addition of turn lanes. Simply put the state and county need to manage and take ownership of this massive safety hazard created.

Project 3

Hwy 72 from County Line to just past Providence requires major lane expansions and widening both directions. The heavy use is obvious and the traffic studies already exist. In reality, this stretch should be more like a freeway with frontage roads to mitigate the issue. Moreover, I-565 drastically requires lane expansion from County Line to I-65 both directions, seriously!
